**SUBJECT: WEST VIRGINIA SPORTS WAGERING INITIAL
MANAGEMENT SERVICES PROVIDER LICENSE REQUEST**

Dear Interim License Applicant,

The West Virginia Lottery is in receipt of your inquiry for a Management Services Provider license. To assist with the preliminary paperwork, we are requesting that the following information be provided:

- A list of services to be provided;
- A list of jurisdictions where you are licensed, certified or approved to conduct sports betting management services; and,
- A list of independent testing laboratories where your product(s) have been tested and approved,

And submitted to:

klamb@wvlottery.com, dboyd@wvlottery.com, and kmorgan@wvlottery.com
West Virginia Lottery
Legal and IT Divisions
900 Pennsylvania Avenue
Charleston, WV 25302

Please note: If you are managing the operations of the sportsbook (example: running the on premise casino sportsbook), providing risk management services, or are an entity providing wagering data and information then you should apply as a management services provider. If you are powering any component of the sports betting system (central management system, e-wallet, mobile/online platform, geolocation, KYC, or otherwise providing software or hardware that integrates with the sports betting system, etc.) then you should apply as a supplier. If you are engaging in a combination of services that fall into both categories, you are not required to apply for both licenses, and should apply for a management services provider license.

For your convenience, we have included the WV Office of Business Registration's Booklet on registering your business to operate legally in West Virginia

Sincerely,

/s/ Alan H. Larrick
Director
